

Dear IEEE P802.3.2 balloter,

The purpose of this letter is to:

- 1) Document the changes that were made to draft IEEE P802.3.2/D3.3 to create draft IEEE P802.3.2/D3.4.
- 2) Provide a copy of the changes requested, together with the responses to these comments.
- 3) Provide an opportunity to change your ballot based on the above.
- 4) Provide you with additional information related to this ballot.

The third recirculation ballot of IEEE P802.3.2/D3.3 received 100% approval, with no comments received. However, IEEE SA Editorial Staff subsequently identified an error in the title of Clause 2. This issue, along with two additional comments, was also noted by the IEEE Registration Authority Committee (RAC).

In response to these comments, some changes were made to draft IEEE P802.3.2/D3.3 to create draft IEEE P802.3.2/D3.4. These changes are listed below:

[1] Changes to Clause 2:

2. ~~Bibliography~~

~~2.1~~ Normative references

[2] Changes to Annex A (informative) Bibliography:

Annex A (informative) Bibliography

[B1] IEEE Std 802®-~~2014~~, IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture.

~~[B2] IEEE Std 802d™-2017, IEEE Standard for Local and Metropolitan Area Networks: Overview and Architecture Amendment 1: Allocation of Uniform Resource Name (URN) Values in IEEE 802 Standards.~~

[~~B2~~~~B3~~] IEEE Std 802.1Q™-~~2014~~, IEEE Standard for Local and metropolitan area networks—Bridges and Bridged Networks.

The subsequent bibliography references are renumbered.

A clean draft without change marks is included in the recirculation package for your reference. If you submit comments, we request that you use the page numbers found in this document.

If you have any questions, please do not hesitate to contact me at your earliest convenience.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
